NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

We note with interest the efforts being made around the country to make this Fourth of July carry the meaning that it once did. Many years ago it meant a day that was set aside to remember our forefathers and recount the many debts that we owe them for our freedom.

It was a day that everyone, both young and old, felt pride and not shame when our flag was flown. It was the day of the patriotic speeches and in our simple naive way we believed them—we believed that our country was great, that it was worth fighting for, and that while we were not a perfect nation, we at least were headed in the right direction.

But there is a well founded fear that in many parts of the country there will be violence between those who believe in America and those who seem to want to tear everything down.

This is supposed to be the day that the "Great Silent Majority" makes itself heard across this great land and we hope that it is, but at the same time we would like to pass along the following thoughts about this "Silent Majority" we hear so much about.

The following editorial appeared in the Seminole Sentinel and was written by the editor, Burl McClellan.

Good "Ole George" has a new name. You remember George. He is the guy everyone gave all the unpleasant tasks a few years ago. Everyone just let George do it. Today, "ole George" has been given a real "Now" name. He is now that great political force that is supposed to take care of all our national problems. He is the "Silent Majority."

Just as George never accomplished much, one should not expect too much from the "Silent Majority." George was a faceless, formless figure that no one could locate when it was time to question him about his lack of accomplishment. The "Silent Majority" may be just as hard to find when a major crisis faces the country.

Every nation has a "Silent Majority." Russia had one when a handful of communists rioted in about three major cities and took over the country. Germany had a "Silent Majority," but it let a Nazi murder six million Jews and commit unnumbered crimes against humanity. There was a "Silent Majority" in the colonies when a minority fought a war of rebellion and won our freedom for England.

The danger in this "Silent Majority" is that one does not know if it is silent because it is listening and thinking, or if it is silent because it is not concerned, or is not informed. A silent, thinking majority will act, but the unconcerned, uninformed will be led or pushed by those who can appeal to their basic emotions, or bully them with force.

No one expects the businessman to go out rioting, or the housewife to take her broom to a parade of protestors. However, the farmer, businessman and housewife can take part in their local political parties, they can write their congressmen, senator or The President and let their feelings be known. Do not think that any officeholder ignores letters from home. Just as your one vote is tabulated to elect or defeat a candidate, your letter and thoughts are tabulated and help the lawmakers make decisions.

The vocal minority is spending large sums of money trying to impress the lawmakers. Are not your opinions and wishes worth a piece of paper, an envelope and a six cent stamp? The total cost could not be more than a dime.

George never accomplished a thing and it is doubtful that a whole collection of Georges in the "Silent Majority" will do more. Become a part of the active majority and make sure this nation survives. BGM

The bride is the daughter of Mr. and Mrs. Clifford R. Reynolds Jr. The bridegroom is the son of Mr. O. H. Weaver and the late Mrs. Weaver.

Officiating was Rev. Max L. Brown, pastor. Dennis Stell of Hobbs, N. Mex., cousin of the bride, was organist. Soloist was Mrs. Max Brown and flutist was Jayne Carol Turner.

Carolyn Reynolds, twin sister of the bride, was maid of honor. Bridesmaids were Mrs. David Haggard, Mrs. Gary Hill, cousin of the bridegroom, both of Dallas, Mrs. Paul Lively, Mrs. Jay Reining, both of Austin, and Mary Margaret Turner.

Sharon Stell of Hobbs, N. Mex., cousin of the bride, was candlelighter.

Mark Smith of Galveston was best man. Groomsmen were John D. Ferguson Jr., Jimmy Inzer of Weatherford, Okla., F. Barry Moore III, Guy L. Weaver and Mike Carter of Abilene, both cousins of the bridegroom.

Guests were seated by Mark Carter of Abilene, Davis Weaver, both cousins of the bridegroom, and Gary Hill of Dallas.

Presented in marriage by her father, the bride wore a formal A-line gown of white peau de soie, featuring pearly scalloped Chantilly lace motifs that encircled the sabrina neckline and repeated in motifs marking the crescent waistline, the long fitted sleeves and scattered over the skirt of the gown. The removable, circular, chapel train adorned with lace motifs was secured at the natural waistline by a large bow. A veil of silk illusion that extended the length of the train fell from a toque of hand clipped lace with a scattering of seed pearls.

She carried a cascade arrangement of stephanotis, gypsophila, and violets which was centered with a white cattleya orchid on a white Bible.

Attendants wore sleeveless gowns of white voile spaced with violet bouquet designs. White velvet streamers falling to the hemline were held with violet headdresses. They carried natural straw baskets filled with violets and gypsophila and tied with white velvet streamers.

The reception was hosted by the bride's parents in the home of her grandmother,

Mrs. C. R. Reynolds, 1001 Northwest First.

After a wedding trip to New Orleans, La., the couple will be at home July 13 at 126 Southwest Second St.

The bride, a 1965 graduate of Hamlin High School, received a bachelor of science degree in pharmacy in June from the University of Texas College of Pharmacy. She was a member of Kappa Epsilon, professional fraternity for women in pharmacy, the Pharmacy Council and Longhorn Pharmaceutical Association. She will be employed at Reynolds Drug as pharmacist at the end of the summer.

Weaver is a 1963 graduate of Hamlin High School and attended the University of Texas. He has taken selective courses in the American Institute of Banking Program. He is employed at Farmers and Merchants National Bank.

The bridegroom's father hosted the rehearsal dinner at Golden Stagecoach Restaurant in Old Abilene Town.

Pre-nuptial compliments to the bride included a luncheon Thursday in the home of Mrs. Henry Albritton. Mrs. John D. Ferguson Sr. was co-hostess.

Guests were served from a polished table centered with an arrangement of spring flowers. Silver appointments were used.

Out-of-town guests were Mrs. Phil Guitart of Abilene and Mona Anderson of Sheffield, Pa.

The bridesmaids luncheon Saturday was given by Mary Margaret Turner and her mother, Mrs. J. C. Turner, at their home.

An ecru cloth covered the serving table which was centered with an arrangement of mixed flowers flanked by candelabra with mint green tapers. Crystal and silver appointments were used. Bud vases holding blossoms in shades of violet centered the foursome tables.

Out of town guests were Mrs. David Haggard, Mrs. Gary Hill, both of Dallas, Mrs. Jay Reining of Austin, Sharon Stell of Hobbs, N. Mex., Mrs. Mike Wiesniski of Bryan and Connie Jo Duncan of Fort Worth.

Mrs. S. C. Hollis attended a styling seminar at the Starlite Inn in Abilene Monday presented by Russ and Barbara Raylotts of Austin.

Motoring Over Border? Check Insurance First

People planning to visit neighboring Canada or Mexico by automobile this year were cautioned today to double-check their auto insurance before crossing the border.

"Canada's insurance requirements are relatively simple to meet, but those of Mexico pose more of a problem," said the Insurance Information Institute.

The Institute said that as long as you have as much as \$35,000 liability insurance, you will meet the minimum require-

ments of the financial responsibility laws of all but one of the provinces. That means you may be required to prove you are good for that amount in the event of an accident. The other province, British Columbia, has a \$50,000 minimum.

To verify that you have the minimum insurance coverage, ask your agent or broker for a yellow card which is readily available for that purpose.

Mexico requires motoring visitors to carry insurance from a Mexican-based company, which you may be able to obtain in advance or which may be purchased at most points along the border. The Institute warned that if you are involved in an accident in Mexico and do not have the proper coverage, your car may be impounded and you might even wind up in jail.

When you apply for your Mexican policy, ask for a listing of agents and brokers who represent your company below the border. The information will be useful in the event of an accident.

Weekend events should be reported to the Herald by noon Monday.

FROM THE FILES . . .

FORTY YEARS AGO
(July 3, 1925)

The "American Creed" was written by William Tyler Page and accepted by the United States House of Representatives on behalf of the American people, April 13, 1918, is as follows:

"I believe in the United States of America as a government of the people, by the people, for the people, whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect union; one and inseparable established upon the principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

I, therefore, believe it is my duty to my country to love it, support its constitution, to obey its laws to respect the flag and defend it against all enemies."

During the ceremony of hoisting or lowering the flag or when the flag is passing in a parade or in a review, all persons present should face the flag, stand at attention and salute. Those present in uniform should render the right-hand salute. When not in uniform, men should remove the headdress with the right hand and hold it at the left shoulder. Women should salute by placing the right hand over the heart. The salute to the flag in the moving column is rendered at the moment the flag passes.

When the national anthem is played those present in uniform should salute at the first note of the anthem, retaining this position until the last note of the anthem. When not in uniform, men should remove the headdress and hold it as in the salute to the flag. Women should render the salute as to the flag. When there is no flag displayed, all face toward the music.

TWENTY YEARS AGO
(June 30, 1950)

Last minute details relative to the commencement of city mail delivery in Hamlin were ironed out in session between Postmaster Perry Sparks and Inspector Powell of the postoffice department.

Principal portion of Friday, June 23, was devoted to this work by the men here.

Boundaries arrived at through this conference will include that area north to the Katy Depot and south to the Victoria Courts to be divided into two routes for carriers. Limits to the west will be defined by the ball park and three streets east of Central Avenue will be served in the southern zone. Two streets east of Central Avenue will have carrier delivery in the north section.

Possible conflict in addressing of mail to boxholders led to the decision that mail would be handled in accordance to the manner in which it was addressed.

No mail delivery service will be rendered on Sundays or holidays. Start of the city mail delivery will automatically suspend what is known

as the drop-letter rate on local postage. First class mail will hereafter be handled for a three-cent rate only.

Postmaster Sparks informed a Herald representative that flexible practices will be followed at the outset of service to Hamlin. Where a resident is well known to the carrier or clerical force to the postoffice, mail will be delivered to a known address whether thus addressed or not. Particular emphasis was placed on the necessity of proper numbering of the houses of Hamlin. A plat of the city and a supply of house numbers have been furnished to Mrs. E. M. Wilson at the Chamber of Commerce and the numbers may be obtained there.

Of particular significance to the patrons of the Hamlin postoffice is the insistence of Inspector Powell that certain rules of the postoffice department be complied with. Economy practices that have been instituted by the department prohibit the overtime work of employees except in cases of prime necessity. For this particular reason, the practice of parcel handout to patrons after closing hours has been prohibited. No service of this sort will be permitted with the exception of perishable commodities such as serums and items needing refrigeration. Baby chicks will come under the perishable classification.

TEN YEARS AGO
(June 30, 1960)

Two brothers, Floyd and Leldon Clifton have purchased a large block of stock in the Farmers and Merchants National Bank here and Floyd was named a vice president at the June directors meeting.

Leldon will join the bank as an officer.

Tate May will remain as the president and W. C. Russell as active vice president of the bank.

May stated that there would be no change in the officers or personnel of the bank and that the policies of the bank will remain the same as they have been in the past.

Until buying stock in the Hamlin Bank, Floyd was in the process of organizing the Community State Bank in Fort Worth where he would have served as president.

He was cashier and vice president of the Hot Springs National Bank of New Mexico before starting this new venture.

Before moving to New Mexico he was cashier and vice president of the bank at Rotan.

At Rotan, he was president of the Chamber of Commerce, served as secretary-treasurer of the Lions Club, a director of the Fisher County Veterans Land Board, treasurer of the American Cancer Society five years, member of the Rotan City Council, director of the Fisher County TB Association, and manager of a little league team, director, Fisher County Labor Advisory committee, and was a member of the board and board secretary of the Rotan Bank.

Neinda Philosopher Claims He Has Made A Great
Discovery About Television News Programs

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One must have his television set back in working shape, his letter this week indicates.

Dear editor:
Being unable to find a newspaper yesterday although I looked everywhere, that is everywhere I could see from my rocking chair on my front porch. I went inside the house late in the afternoon and turned on the television set for the first time in a long time and will admit I learned something I didn't know before.

Now I knew that in the summer time the networks re-run their winter and spring programs on the theory I guess that if Hamlet is worth seeing more than once so is Festus, but yesterday was the first time I discovered that they re-run their news programs too.
It's a fact. Here came Huntley and Brinkley telling us their names although I caught on to who they were years

ago, and then they gave exactly the same news they gave months ago.

For example, they reported that Israel fought off an Arab attack with the loss of one Jeep and three canteens while destroying eight Arab planes, and in the same skirmish, which the Arabs said the Israelis launched, the Arabs said they destroyed ten Israeli tanks and shot down ten planes.

Then they switched to London where a newscaster in a trench coat standing in the wind outside some building reported a new proposal for peace in the Middle East is being discussed.

In Viet Nam they ran the film of the reporter dodging bullets, failing once more to tell us what was happening to the camera man.

Getting around to the home front, they reported the cost of living went up three-tenths of one percent last month, the stock market fluctuated, another freight train had derailed, Agnew

had spoken, there was a riot in Memphis or Los Angeles, I forget which, more studies are being made to halt inflation, pollution has shown up off the shore of whatever coast it was they had their camera trained on, the urban crisis is still the urban crisis, etc.

It's a fact. The networks are using re-runs on their newscasts. All they're changing is the shape of David Brinkley's tie.

There's nothing to report, is there, that the football leagues aren't going to play this fall, just re-run last season's.

Yours faithfully,
J. A.

Freedom

Inscription for the Statue of Liberty

BY EMMA LAZARUS

Give me your tired, your poor,
Your huddled masses yearning to breathe free,
The wretched refuse of your teeming shore,
Send these, the homeless, tempest-tossed, to me:
I lift my lamp beside the golden door.

This truly reflects the attitude of a nation living close to God. The concern and love for others grows through Christian fellowship. Attend Church Regularly.

EVERYONE IN THE CHURCH
THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Ag Teachers Give Tips On Arc Welding

The farm arc welder can be a very useful piece of equipment on the farm. Many emergency repairs can be done as well as items such as gates, cattle guards, trailers, etc., can be constructed, according to T. C. Blankinship and Milburn Wink, Vocational Agriculture teachers at Hamlin High School.

Cutting metals such as cast, malleable, and stainless steel, can be done with the farm arc welder. In most cases it is more practical than using oxy-acetylene.

A special electrode for gouging, cutting, and piercing metal is available from some dealers.

When using the E6011 electrode for cutting, dipping it in water will give it longer life. The higher amperage machines (255 Amps or higher) give better results when cutting.

The carbon arc torch is often referred to as cutting equipment, but it is not practical. It is very useful for light brazing, soldering, welding of aluminum irrigation pipe, heating metal for bending, and heating of large nuts for ease of removal from 1/2 to 1" bolts.

A member of Alcoholic Beverages Commission has called for simplified agency auditing procedures for breweries and liquor wholesalers.

THE FAMILY LAWYER

Step In The Dark

Frank, visiting at a suburban home, went to look for the bathroom. He opened a door, encountered total darkness, took one bold step forward, and toppled down the stairway to the basement.

Could Frank hold the home owner legally liable for his accident? A court said he could not, because he had no one to blame but himself.

"Darkness," said the court, "constitutes a warning to proceed either with extreme caution or not at all."

A step in the dark is, all too often, a step in the wrong direction. Literally thousands of accident victims, seeking to recover

damages, have found their rights impaired by their own failure to heed the warning that darkness gives.

True, there may be extenuating circumstances. In one case, a shopper was held not negligent for having ventured into a dark

storeroom, after a clerk had assured her it was all right to go there.

In another case a member of a lodge, coming to the locker room, found it in darkness. He stepped inside to reach for the light switch. But as he did so, he stumbled over a bench that someone had left in the aisle.

Again, a court found the man not negligent, since he had done the natural thing under the circumstances. The court pointed out that he had no reason to expect an obstacle where, in his past experience, there had always been an open space.

However, even if you are justified in stepping into a dark place, you should still use reasonable ingenuity to cut your risk to a minimum. For example, it may be negligent in the eyes of the law for you to fail to use matches if you happen to have them in your pocket.

One man who fell down an elevator shaft in a dark warehouse was held negligent because he had forgotten to use the cigarette lighter he was carrying. The court commented:

"The parental precept, 'Look where you are going,' is a sound statement of conduct which has become crystallized into a rule of law."

'Drive Friendly' Urged for Fourth As 46 Expected Die This Weekend

AUSTIN — Colonel Wilson E. Speir, director of the Texas Department of Public Safety, today cautioned motorists that traffic accidents during the Independence Day period from 6 p.m. Thursday, July 2, to midnight Sunday, July 5 may claim as many as 46 lives in Texas.

"I am urging all Texans to adopt the 'Drive Friendly' theme during this holiday and to avoid unsafe practices which contribute to accidents," Speir said.

The DPS director listed the chief factors contributing to traffic crashes as speed too fast for conditions, driving while drinking, and driving on the wrong side of the road, often as the result of fatigue.

Speir said all available Highway Patrolmen will be on duty during the holiday period, augmented by uniform officers from other DPS services. Also, the DPS will conduct its "Operation Motorcade" program of tabulating and announcing traffic accidents three times daily in effort to bring about increased awareness of the added dangers of holiday traffic.

In addition to Department of Public Safety efforts, trained truck and bus industry safety men will take to the roads to participate in a unique Holiday Road Patrol.

Some 45 to 50 road patrol cars manned by experienced members of the Texas Council of Safety Supervisors will be on the highways to aid motorists in trouble. The program is sponsored by the Texas Motor Transportation Association, a statewide organization representing the motor carrier industry.

Junior Chamber of Commerce organizations in many parts of the state will operate rest stops for motorists along heavily traveled highways.

News media, business, and trade groups are also participating in the traffic safety program and the DPS director lauded their contributions.

"We especially appreciate the close cooperation of newspapers, the broadcast industry, and the outdoor advertising public attention on safe driving," Speir said.

How to avoid unnecessary service bills---and beat inflation!

It's easy to avoid unnecessary appliance service calls. How? Just be sure something's wrong with the appliance before you call a service technician.

Proof lies in the fact that appliance service companies report on automatic washers alone, about 40 per cent of first-year service calls could be avoided.

Service calls on most appliances could be avoided by following these two simple rules.

First, learn all you can about your appliance. Second, check a few simple items before you call a technician. Not only is it embarrassing to have a service technician tell you the machine isn't plugged in or that a fuse is blown . . . it can be expensive, too.

How do you learn about your appliances?

When you purchase an appliance, ask the salesman for the owner's manual and installation guide before the unit is delivered. Then sit down with a cup of coffee and read both manuals thoroughly.

The owner's manual is your textbook and the salesman and service technician are your teachers. But it is your responsibility to use them. Ask questions. Don't be satisfied with the answers until you understand your appliance completely. And keep instruction books nearby for quick reference.

If you have lost your owner's manual, write the manufacturer. His address and model number (be sure to give the model number) will be stamped or printed on the appliance.

With proper use and care, you can expect years of trouble-free operation from your appliance. However, as any other machine, appliances may need occasional adjustment.

But, before calling the service technician check these items. They are the most common sources of unnecessary service calls:

1. Electric cord. Is it plugged in?

2. Pilot light. Is it lit? Check your owner's manual before trying to light it.

3. Power source. Has a fuse blown or a circuit breaker moved to the off position?

4. Controls. Are they set correctly? Be positive by checking your owner's manual. Give pushbuttons an extra firm push and turn dials in the proper direction.

5. Lights. If not on, check the power source. If the bulb's burned out, your owner's manual will tell you type of bulb needed for replacement.

6. Dust, lint and dirt build-up. This reduces efficiency. Washer filters (if not self-cleaning) and dryer lint screens need to be cleaned after each use.

Dust and dirt can block your air conditioner filter. Check your owner's manual for instructions in changing or cleaning the filter.

Dust and dirt will also build up on the coils, back and beneath refrigerators and freezers. They should be cleaned periodically with a brush or vacuum cleaner attachment.

7. Water supply. Is water flowing into the appliance? Be sure faucets are turned on and hoses not kinked.

8. Doors and latches. Are they properly closed? Most appliances will not operate correctly unless doors and latches are closed tightly.

That's how to avoid the most common unnecessary appliance service calls.

If you've made the basic checks and read your owner's manual and the appliance still doesn't operate correctly . . . it's time to call for help.

But don't call any fix-it man down the street. Get the job done right. Call your dealer and ask him to recommend a manufacturer's authorized service technician . . . or contact the manufacturer directly.

Your university extension center, utility home economist or county agent can be an additional source of information. Or, you may write me, Leslie Paige, Whirlpool Corporation, Benton Harbor, Michigan 49022.

By avoiding unnecessary service calls, you'll save money. That's one way to beat inflation.

HAMLIN, TEXAS

AUSTIN, — A governor's committee has come up with proposals to withhold state money from segregated school districts and to create a Texas fair employment commission and department of housing.

Far-reaching recommendations in other areas were offered by the 50-member Governor's Committee on Human Relations which also urged that a permanent commission with increased funds and power be set up in the civil rights area.

A sub-committee panel was told there are 36 Texas school districts which have at least one all-Negro school. State funds finance about 80 per cent of school operations.

Dr. Abner McCall, president of Baylor University, Waco, led an unsuccessful fight to defeat the recommended cut-off of funds, arguing that the action would "punish children," not responsible officials. McCall said the remedy for segregated schools lies in federal courts.

All recommendations of the Committee, when finally

drafted, will go to the Legislature, where many obviously will face cool reception. Among the proposals were these:

Adoption of state housing and building codes;

Open housing legislation and state aid on low-cost housing;

Review of school textbooks to eliminate those which are "culturally or historically biased;"

Free lunches in schools for needy;

A state minimum wage law in line with federal scales (now \$1.60 an hour);

Broadened vocational-technical education;

Establishment of a civil grievance mechanism;

Review of methods of juror selection in trials to eliminate racial discrimination;

Better training for all police officers and more rigorous selection and review procedures for officers.

Study of more humane crowd control methods, prompt punishment for police brutality and strengthened community relations programs for police and prosecutors.

NEW VOTERS UNDER 21? — Secretary of State Martin Dies Jr. calculates there could be as many as 395,000 voters under 21 added to Texas registration rolls if the federal 18-year-old vote act stands.

State's chief election officer cited the Bureau of Census and University of Texas studies estimating there are approximately 594,000 Texans who are over 18 and under 21. About 66 per cent of eligible voters of all ages now register and in general elections about 75 per cent of those registered actually vote.

Dies predicted the U. S. Supreme Court will rule on the constitutionality of the new federal act before January 1, its effective date. He said he hopes the ruling will be before October 1, start of the state's voter registration period for the 1971 voting year.

If there is no decision by that time, Dies said, problems will be created for registrars. In event the statute is ruled unconstitutional after October, tax assessors would have to go back and remove newly-

COURTS SPEAK — U. S. District Judge Jack Roberts in Austin held that a suit for libel and slander brought by a former Richmond State School superintendent against state mental health-retardation officials posed no substantial federal question.

State has appealed to the U. S. Court of Appeals in New Orleans a June 12 ruling by Federal Judge Reynaldo Garza at Brownsville taking jurisdiction in Platoro Inc. suit claiming treasure it recovered from Padre Island shipwreck.

State has appealed to the arguments for July 22 on whether irregularly scheduled tour-charter buses need state permits to operate outside city limits.

Federal court in Albuquerque granted a temporary order restraining New Mexico

ranchers and cattle raisers from spraying insecticide toxaphene on 2,000,000 acres of land which is a portion of the Canadian River interstate watershed from 11 Texas cities get their water supply in Moore, Hutchinson and Potter Counties.

State Supreme Court held that a firm that circulated an erroneous report of bankruptcy about a Midland man was not responsible for damages.

Atty. Gen. Crawford Martin is appealing a Dallas federal court decision that Texas' abortion laws are unconstitutional.

PATROLMEN STAY — Governor Smith concurred in the Department of Public Safety's recommendation that Highway Patrolmen Jerry Byrd and Kenneth Stafford be retained on duty in the Mathis area.

Mathis City Council has asked that the patrolmen be removed for beating prisoners. San Patricio County grand jury later found the officers guilty of no wrong and handed them commendation for "excellent work."

Smith produced a thick file of eyewitness affidavits stating the officers were trying to restore peace and that the prisoner who was "slapped" was struggling and cursing.

Mathis Mayor Winston Bott took strong exception to the finding and said he would appeal to federal

agencies for investigation.

SHORT SNORTS — James R. Hill of Corpus Christi is the new president of the 4,000-member Texas Restaurant Association.

Sen. David Ratliff Named to Study Insurance Rates

Lieutenant Governor Ben Barnes today appointed five senators to the Senate Interim Committee on Automobile Insurance Rates.

Barnes appointed Senators Ronald Bridges of Corpus Christi; Tom Creighton of Mineral Wells; Jack Hightower of Vernon; Oscar Mauzy of Dallas; and, David Ratliff of Stamford to the study group.

Senator Mauzy was appointed Chairman of the Committee.

Authorized by S. R. 1047, the members will study and investigate all matters relating to the rates of automobile insurance and report their findings with the feasibility of insurance companies taking into account their investment income when determining insurance rates for automobiles.

The Committee's findings will be presented to the 62nd Legislature, meeting in January, 1971.
